

# PLT PreK-8 Activity Guide

This guide contains 96 interdisciplinary, hands-on activities about trees and natural resources (land, air, water). Activities give students opportunities to investigate environmental issues and encourage learners to make informed, responsible decisions. Visit the [PLT national Web site](#) to sample the PLT activity "[Environmental Exchange Box](#)" or "[Make Your Own Paper](#)"

In addition to the 96 activities, the guide also offers valuable teaching tips and strategies, technology connections, a glossary of terms, and thorough cross-referencing of activities by subject area, grade level and topic. Supplementary Resources to the guide include:

- [Resources, Earth & Sky Radio shows, and PDFs of STUDENT PAGES for each activity](#)
- [Reading connections](#)
- [Technology connections](#)
- [Differentiated Instruction](#) enhancements
- [Resources for Spanish-speaking students](#)

Check the [Indiana PLT workshop calendar](#) to find a scheduled PreK-8 workshop, or contact the Indiana PLT office to ask about scheduling one.
